

Developing Parent Support Groups

Speech-language pathologists working with children with Language Disorder are invited to participate in a study to help us design evidence-based family support groups.

- Are you currently working as an SLP with children who have language disorder?
- Are you ASHA certified? Do you have an active state SLP license?
- Do you have 3+ years of experience?

We need your help to design support groups for parents of children with Language Disorder!

What happens in the study?

- Phone call to confirm eligibility (20 min)
- Focus groups and interviews (90 min)
- Share what you think parents of kids with Language Disorders would want in a support group program
 - **Topics** - *therapy options, dealing with insurance, understanding reports*
 - **Structure** - *remote/in person, group size*
- Receive up to \$50 for participation
